

Zambia is a country which has felt the devastating effects of the HIV/AIDS epidemic. With over 14% of the population infected, women have higher infection rates than men. EFZ is working hard to support people living with HIV through its HIV Department by providing assistance to orphans and vulnerable children (OVCs). Zambia's first ever Women's HIV Prevention Convention was held recently in Lusaka and is a positive step in the right direction towards gender equality. [Read more](#)
